Mr. Frank Norcross,

Thank you for the opportunity to provide comment on the DOE's proposed changes in its reporting requirements. Please be advised that Franklin County, Ohio is not supportive of any requirement for filing monthly reports. That approach does not take into consideration the time required to complete as many as eight additional reports by already overburdened staff. Franklin County is a large, urban county with staff experienced in responding to federal reporting requirements. I cannot imagine how smaller, economically depressed counties with limited staff could be expected to meet the new standard.

Please contact me if you wish to discuss this matter further.
