Frank,

While I understand the need for accountability in regards to ARRA, this proposed increase in reporting regulation will be an undue burden on our organization. It will undoubtedly have the unintended consequence of hampering production as we would be spending yet more time on paperwork.

Also, please keep in mind that we are receiving less indirect funds as a percentage of the total because of the current guidelines. We already now have to deal with Davis-bacon with indirect funds that we had not originally planned for.

We are committed to being successful and meeting the Presidents goals but I can't help but think that someone is working against us by continuing to put up barrier after barrier.

Does the President know of these barriers being put up by his own department?

Thanks,

Scott Long, CEO
Green Hills Community Action Agency
