

Neighborhood House, Inc .is a non-profit organization in the State of Delaware who works in New Castle County, the agency manages 564 units for \$3.7 million. Currently, it takes our agency 8 hours of monthly reporting. These additional requirements could potentially increase the reporting time for us and our sub-contractors by 4-6 hours.

We are concerned that we currently have limited staff to handle such a burden. The reports that we currently have to complete are: Weekly, Monthly, Quarterly & Davis Bacon Certified Payroll.

We feel that additional requirements will increase the burden on the sub-grantees and defeat the purpose of paperwork reduction and reduction of our carbon footprint.
