SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A. The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on January 7, 2025 at 90 FR 1183.

A. Overview of Information Collection

Title of Information Collection: Stepped and Tiered Rent Demonstration Evaluation, Phase 2.

OMB Approval Number: 2528–0339.

Type of Request: Revision of currently approved collection.

Form Number: N/A.

Description of the need for the information and proposed use: HUD has

selected 10 Public Housing Agencies (PHAs) to participate in the second cohort of the Moving to Work (MTW) Expansion, Stepped and Tiered Rent Demonstration (STRD). These PHAs are implementing an alternative rent policy (a stepped rent or tiered rent) that intends to reduce PHA administrative burden and increase economic self-sufficiency of assisted households. Five PHAs are implementing a stepped rent and five PHAs are implementing a tiered rent. HUD's Office of Policy Development and Research (PD&R) is evaluating the impacts of those alternative rent policies, using a randomized controlled trial. The evaluation will rely on data from a variety of sources, including new information collection efforts proposed in this Notice. HUD contracted with MDRC to conduct the first phase of the evaluation, including random assignment, baseline data collection, and monitoring PHA implementation, and has now contracted with MDRC to conduct the second phase of the evaluation, including further administrative baseline data collection and follow-up data collection for the first three years of the six-year demonstration.

This **Federal Register** notice is seeking to extend and build upon previously approved data collection activities. For the second phase (Phase 2) of the evaluation, additional interviews with PHA staff will be conducted to understand their experiences with the alternative rent policies and costs associated with administering the alternative rent rules, and a 30-month follow-up survey will be fielded to study participants to assess the effects of the alternative rent policies on key outcomes that cannot be captured with administrative records, including material hardship. In addition to collecting these data, the STRD project will continue monitoring the implementation of the alternative rent rules and collecting PHA records for this purpose. Data collected is being used to estimate the effects of the alternative rent rules on employment, earnings, housing subsidy, and other key outcomes.
