General Comment

this method of evaluating quality is substandard, wasteful and shows a lack of honesty and decency, morality in setting it up so that it is a worthless, wasteful endeavor. it needs revision and is not capturing any worthwhile information at all. this is just another example of the substandard negative, lying propagandistic work of this agency, shown up by the entire 3 years of the covid fake pandemic. this is a failign corrupt agency, that needs to be shut down and defunded entirely. this project should be stopped. it accomplishes nothing. a criminal investigation should be done of this agency to see why foia requests are not answered and are deleted. we need to start fresh with a new agency. this one is expired and defective and fake. too much waste and subversion and anti-american actions have taken place in this site where all is lying, propaganda and waste. defund this entire project. it is producing nothing of value.
