---

This agency collection should be terminated immediately due to multiple violations of regulations within the years of approval and extensions. The FMCS is not associated with rule making within the OMB system, therefore this is a violation of PRA. There is also another regulation violation of the OMB contract that expired in 2018 with no authorization to continue and no confirmation to discontinue the agreement in place. The unlawful agreement remained in place for approximately eight years without proper regulatory compliance and no enforcement of action to remove such inappropriate activity.
