RE: VA-2025-VACO-0001-0007, Agency Information Collection OMB 2900-0865

Dear commenter,

The Department of Veterans Affairs (VA) National Cemetery Administration (NCA) appreciates your comment submitted in response to the renewal notice for the 2900-0865 information collection. Your comment stated “This agency collection activity is not in compliance with the original setup requirements for implementation of this contract. It is not required to extend a contract that was not properly established in the first place and therefore should be removed from the OMB system.”

The provision of funeral honors, whether by DoD or volunteer entities, is not a contracted service.

Again, we thank you for the comment on this collection of information and support of our Nation’s Veterans.
