Importance: High

Ms. Joella Roland,

I am writing to request additional information regarding the proposed project OMB No. 0915-0157: Data System for Organ Procurement and Transplantation Network - Revision. Specifically, I would appreciate a copy of the data collection plans and draft instruments, including details of the changes to existing forms and the 83 proposed new data collection forms.

Based on the details provided in the Federal Register, it appears that much of the data requested in the new collection forms could potentially be captured through the existing UNet system. It is critical for the transplant community to understand the rationale for these proposed changes, as the outlined significant increase in burden hours that has been outlined is untenable.

Your prompt response and any clarification on these matters would be greatly appreciated, as it will enable stakeholders to provide informed feedback on this important proposal.

Thank you for your attention to this request.

Sincerely,
Abbey Olsen, MSN, RN
