To whom it may concern,

I write in response to the comment request. I object to the supposed 'Minor changes' which 'were made to previously approved EEO Forms to reflect the removal of gender identity and sexual orientation as a basis for sex discrimination.' This is clearly contrary to existing employment law and precedent on sex discrimination, per the Supreme Court ruling in Bostock. This creates undue burden for employees who experience potential EEOC violations on the basis of sexual orientation or gender identity.

I appreciate the consideration of comments on this matter.
