Dear <producer name/"Tribal member">,

We need your valuable feedback to help make the Environmental Quality Incentives Program (EQIP) more streamlined and improve the program delivery to customers!

You have been selected to participate in a USDA Natural Resources Conservation Service (NRCS) EQIP Customer Satisfaction Survey measuring services of the NRCS EQIP application process. You are receiving this survey because you applied for EQIP within the last two years. Your vital feedback will help us better serve America's farmers, ranchers, and forest managers.

The enclosed survey asks you to provide feedback about your NRCS EQIP application experience as well as your general views on doing business with NRCS and should take about 10 minutes to complete. Individual responses will not be tracked or reported and will be kept confidential by using an independent company to analyze and manage the data and report the results.

Your response is important! It will help us find better ways to engage with EQIP applicants, enhance support, increase ease of understanding, and improve our service to you.

If you need assistance completing this survey, please contact your local USDA service center. To find your nearest service center, visit www.farmers.gov/service-center-locator or call 1-833-ONE-USDA (1-833-663-8732).

Thank you for taking the time to provide us with your feedback!

Sincerely,

Aubrey J. D. Bettencourt

Chief for the Natural Resource Conservation Service
United States Department of Agriculture

USDA is an equal opportunity provider, employer and lender. According to the Paperwork Reduction Act requirement, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0503-0024 and expires 04/30/2026. The collection is voluntary. The time required to complete this information collection is estimated to average 10 minutes per response, including the time for reading advance letter, reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
