To Whom it May Concern,

As a 9.5yr grateful SPK recipient and 45yr woman who waited 7 years for her gift of life. I can't tell you how much this gift means to me. Truly life changing.

I would like to ask for more Transparency and Data collection to better serve patients upon the referral process to Transplant Centers. Patients must know all the facts and figures to make informed decisions.

Thank you for your time and consideration when reviewing my comments.

Warmest Regards,
Jen
