

H. General and Miscellaneous Comments

FTA received two comments requesting that FTA delay implementation of all proposed reporting requirements. One commenter requested a 12-month extension due to the potential burden for agencies to implement the changes. The second commenter requested all requirements be delayed until RY 26, given the timing of FTA's proposals and the notice and comment process.

FTA received several comments outside the scope of its proposals, including recommendations that FTA should make the *feed_info.txt* file mandatory and provide certain additional guidance about hosting and reporting GTFS feeds. One commenter asked FTA to collect more accurate data distinguishing trespassers from suicides, and another requested certain changes to the NTD financial data reporting requirements.

FTA Response: FTA declines to extend the implementation timeline for the reporting changes and clarifications. Certain changes, including the predominantly rural reporting waiver and the consolidation of the A-10 and A-15 forms, are intended to reduce reporting burden. FTA acknowledges that implementation of some of the new NTD reporting changes may present challenges for some agencies. However, FTA does not believe that this warrants a delay in implementation. FTA reiterates that the changes to cyber security reporting are clarifications to NTD reporting requirements that already exist. In addition, FTA reiterates the need to align NTD reporting with the new definition of "disabling damage" under 49 CFR part 674 as quickly as practicable. As stated previously, FTA will provide guidance and work closely with reporters as necessary to ensure the transition to implement these changes is minimally burdensome. FTA encourages reporters to engage with FTA for any technical assistance or clarification during the transition. FTA therefore declines to provide an extension and will implement each change according to the timeline originally proposed.

FTA acknowledges the recommendations that are outside the scope of the proposal. FTA will consider this feedback in future updates to the NTD reporting requirements.

Tariq Bokhari,
Acting Administrator.

Agency Requests for Renewal of a Previously Approved Information Collection: Exemptions for Air Taxi Operations

AGENCY: Office of the Secretary, OST, Department of Transportation (DOT)

ACTION: Notice and request for comments.

SUMMARY: The Department of Transportation (DOT) invites public comments about the agency's intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The collection involves a classification of air carriers known as air taxi operators and their filings of a one-page form that enables them to obtain economic authority from DOT. The information to be collected is necessary for DOT to determine whether an air taxi operator meets DOT's criteria for an economic authorization in accordance with DOT rules. We are required to publish this notice in the **Federal Register** by the Paperwork Reduction Act of 1995, Public Law 104-13.

DATES: Written comments should be submitted by September 8, 2025.

ADDRESSES: You may submit comments identified by Docket No. DOT-OST-2004-16951 through one of the following methods:

SUPPLEMENTARY INFORMATION:

OMB Control Number: 2105-0565.
Title: Exemptions for Air Taxi Operations.

Form Numbers: OST Form 4507.

Type of Review: Renewal of previously approved information collection.

Background: Part 298 of Title 14 of the Code of Federal Regulations, Exemptions for Air Taxi Registration, establishes a classification of air carriers known as air taxi operators that offer on-

demand passenger service. The regulation exempts these small operators from certain provisions of the Federal statute to permit them to obtain economic authority by filing a one-page, front and back, OST Form 4507, Air Taxi Operator Registration, and Amendments under Part 298 of DOT's Regulations.

DOT expects to receive 200 new air taxi registrations and 2,200 amended air taxi registrations each year, resulting in 2,400 total respondents. Further, DOT expects filers of new registrations to take 1 hour to complete the form, while it should only take 30 minutes to prepare amendments to the form. Thus, the total annual burden is expected to be 1,300 hours.

Respondents: U.S. air taxi operators.

Number of Respondents: 2,400.

Frequency: On occasion.

Number of Responses: 2,400.

Total Annual Burden: 1,300 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) whether the proposed collection of information is necessary for the Office of the Secretary's performance; (b) the accuracy of the estimated burden; (c) ways for Office of the Secretary to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1:48.

Title: Veterans Engagement Action Center (VEAC) Surveys.

OMB Control Number: 2900–0912
<https://www.reginfo.gov/public/do/PRASearch>.

Type of Review: Extension of a currently approved collection.

Abstract: Veterans Experience Action Center (VEAC) is a Veterans Affairs (VA) program established to proactively assist Veterans in a selected state with a one-stop resource for all their needs. The VEAC brings together VA benefits, health care and other resources in partnership with state VA resources.

The VEAC gathers feedback from Veterans, Active Military, Guard/Reservist, Family members, caregivers, providers, and survivors. The VEAC then provides that feedback to VA leaders to measure the success of the outreach event and measure the ease, effectiveness, emotion, and trust from the participants as they exit.

The surveys will further allow the Veterans Experience Office (VEO) to measure whether the needs of the participants were met. Additional areas where the survey results will impact:

- Identifies gaps and challenges in health care, benefits, and service delivery.
- Identifies areas for how VA can best support local efforts in a holistic fashion.
- Identifies areas where there may be barriers to access, and outreach tailored to local communities.

Per FY2021 MILCON House report 116–445, the Committee directs the VA to provide quarterly reports on the status of the implementation of the

VEAC pilot program; the effectiveness of the pilot program at reaching Veterans, particularly those in need, and increasing utilization of VA services:

- Congress (Quarterly Congressional Tracking Reports (CTRs))

VEAC surveys afford VEAC participants the ability to provide feedback to VA and allow the customer to share their experiences. VEO uses the customer's feedback to enhance and increase outreach and engagement efforts and determine the direct value of our efforts.

The surveys and its delivery are an innovative approach to measure and improve customer experience based on the “voice of the Veteran.” Through the use of the VSignals digital platform, VEO can identify gaps and challenges in the community, provide information on VA programs, increase access and outreach, identify what is and what is not working, and determine how VA can best support local community efforts in support of Veterans, families, caregivers, and survivors.

Survey respondents will be Veterans, Active Military, Guard/Reservist, family members, caregivers, and survivors that attend a VEAC event. Different surveys may be administered participants of events:

1. *VEAC Exit Survey:* Outreach event staff will verbally administer the survey to event attendees as the last step in the overall event process. The outreach staff will fill out the web-based survey on behalf of the outreach event participant.

2. *VEAC Email Survey:* A survey will be sent via email to event attendees that were not able to take the VEAC Exit Survey. The email survey will not be sent to event attendees that opted out of the VEAC Exit Survey.
