

collection techniques or other forms of information technology.

In response to your comments, we may revise this ICR or decide not to seek an extension of approval for the Collection. We will consider all comments and material received during the comment period.

We encourage you to respond to this request by submitting comments and related materials. Comments must contain the OMB Control Number of the ICR and the docket number of this request, USCG–2025–0247, and must be received by October 21, 2025.

#### Submitting Comments

We encourage you to submit comments through the Federal eRulemaking Portal at <https://www.regulations.gov>. If your material cannot be submitted using <https://www.regulations.gov>, contact the person in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions. Documents mentioned in this notice, and all public comments, are in our online docket at <https://www.regulations.gov> and can be viewed by following that website's instructions. We review all comments received, but we may choose not to post off-topic, inappropriate, or duplicate comments that we receive. Additionally, if you go to the online docket and sign up for email alerts, you will be notified when comments are posted.

We accept anonymous comments. Comments we post to <https://www.regulations.gov> will include any personal information you have provided. For more about privacy and submissions in response to this document, see DHS's eRulemaking System of Records notice (85 FR 14226, March 11, 2020).

#### Information Collection Request

**Title:** Marine Occupational Health and Safety Standards for Benzene—46 CFR 197 Subpart C.

**OMB Control Number:** 1625–0063.

**Summary:** To protect marine workers from exposure to toxic Benzene vapor, the Coast Guard implemented 46 CFR 197 Subpart C.

**Need:** This information collection is vital to verifying compliance.

**Forms:** None.

**Respondents:** Owners and operators of vessels.

**Frequency:** On occasion.

**Hour Burden Estimate:** The estimated burden remains 38,165 hours a year.

**Authority:** The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended.

Dated: August 20, 2025.

**Bradley E. White,**

(Acting) Chief, Office of Privacy Management,  
U.S. Coast Guard.

**BILLING CODE 9110–04–P**

## DEPARTMENT OF HOMELAND SECURITY

### Federal Emergency Management Agency

**[Docket ID: FEMA–2025–0013; OMB No. 1660–0086]**

#### Agency Information Collection Activities: Submission for OMB Review, Comment Request; National Flood Insurance Program—Ask the Advocate Web Form

**AGENCY:** Federal Emergency Management Agency, Department of Homeland Security.

**ACTION:** 30-Day notice of revision and request for comments.

**SUMMARY:** The Federal Emergency Management Agency (FEMA) will submit the information collection abstracted below to the Office of Management and Budget for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995. FEMA invites the general public to take this opportunity to comment on a revision of a currently approved information collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, this notice seeks comments concerning the Office of the Flood Insurance Advocate's (OFIA) Ask the Advocate web form and the removal of two instruments that are no longer needed.

**DATES:** Comments must be submitted on or before September 22, 2025.

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection should be made to Director, Information Management Division, 500 C Street, SW, Washington, DC 20472, email address [FEMA-Information-Collections-Management@fema.dhs.gov](mailto:FEMA-Information-Collections-Management@fema.dhs.gov) or Joe Cecil, Advocate Representative Team Lead,

Office of the Flood Insurance Advocate, National Flood Insurance Program, Federal Emergency Management Agency, at (202) 701–3465 or [Joseph.Cecil@fema.dhs.gov](mailto:Joseph.Cecil@fema.dhs.gov).

**SUPPLEMENTARY INFORMATION:** Section 24 of the Homeowner Flood Insurance Affordability Act of 2014 (Pub. L. 113–89, codified at 42 U.S.C. 4033), requires FEMA to designate a Flood Insurance Advocate that would advocate for the fair treatment of National Flood Insurance Program (NFIP) policyholders and property owners by: (1) providing education and guidance on all aspects of the NFIP, (2) identifying trends affecting the public, and (3) making recommendations for NFIP program improvements to FEMA leadership. Pursuant to this authority, FEMA established the OFIA on December 22, 2014.

Members of the public regularly contact OFIA seeking assistance on the NFIP. OFIA seeks to facilitate the timely and effective management of these inquiries by using a web form on OFIA's web page at <https://www.fema.gov/flood-insurance/advocate>. The web form allows users to provide information that includes all the data necessary for OFIA to perform its Congressionally-mandated duties and responsibilities.

The Federal Insurance Directorate determined the Mortgage Portfolio Protection Program (MPPP) form is no longer necessary due to the implementation of Risk Rating 2.0 and therefore will not be renewed under this effort. This revision removes both the Financial Assistance/Subsidy Arrangement Notice of Acceptance and MPPP Agreement Receipt for Materials instruments from this information collection, as they are no longer needed. This revision also corrects a technical error within ROCIS that inflates the burden imposed by the remaining FEMA Form FF–206–FY–21–121, Ask the Advocate Web Form.

This proposed information collection previously published in the **Federal Register** on June 6, 2025, at 90 FR 24150 with a 60-day public comment period. No comments were received. The purpose of this notice is to notify the public that FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance.

#### Collection of Information

**Title:** National Flood Insurance Program—Ask the Advocate Web Form.

**Type of Information Collection:** Revision of a currently approved information collection.

**OMB Number:** 1660–0086.

*FEMA Forms:* FEMA Form FF-206-FY-21-121, Ask the Advocate Web Form.

*Abstract:* OFIA advocates for the fair treatment of NFIP policyholders and property owners by providing education and guidance, identify trends that affect the public, and making recommendations for NFIP program improvements. OFIA uses the Ask the Advocate Web Form as an electronic intake instrument to gather the required data for each case.

*Affected Public:* Individuals or Households; Businesses or other For-Profit.

*Estimated Number of Respondents:* 1,000.

*Estimated Number of Responses:* 1,000.

*Estimated Total Annual Burden Hours:* 83.

*Estimated Total Annual Respondent Cost:* \$3,931.

*Estimated Respondents' Operation and Maintenance Costs:* \$0.

*Estimated Respondents' Capital and Start-Up Costs:* \$0.

*Estimated Total Annual Cost to the Federal Government:* \$39,631.

## Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the Agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

**Russell R. Bard,**

*Acting Senior Director for Information Management, Office of the Chief Administrative Officer, Mission Support, Federal Emergency Management Agency, Department of Homeland Security.*

## DEPARTMENT OF HOMELAND SECURITY

[Docket No. CISA-2025-0007]

### Request for Comment on 2025 Minimum Elements for a Software Bill of Materials

**AGENCY:** Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

**ACTION:** Request for Information (RFI).

**SUMMARY:** The Cybersecurity and Infrastructure Security Agency (CISA) announces the publication and request for public comment on draft guidance entitled, "2025 Minimum Elements for a Software Bill of Materials (SBOM)" (2025 CISA SBOM Minimum Elements), which updates the elements of an SBOM to reflect improvements in SBOM tooling and increased maturity of SBOM implementation. CISA requests input on the clarifications and enhancements in the proposed voluntary guidance.

**DATES:** Comments are encouraged and will be accepted until October 3, 2025. Submissions received after the deadline for receiving comments may not be considered.

**ADDRESSES:** You may submit comments, identified by docket number CISA-2025-0007, by following the instructions below for submitting comments via the Federal eRulemaking Portal at <http://www.regulations.gov>.

*Instructions:* All comments received must include the agency name and docket number Docket # CISA-2025-0007. All comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided.

*Docket:* For access to the docket to read background documents or comments received, go to <http://www.regulations.gov>.

Commenters may access the 2025 CISA SBOM Minimum Elements on CISA's website at: <https://cisa.gov/resources-tools/resources/2025-minimum-elements-software-bill-materials-sbom>.

**FOR FURTHER INFORMATION CONTACT:** Victoria Ontiveros, [victoria.ontiveros@mail.cisa.dhs.gov](mailto:victoria.ontiveros@mail.cisa.dhs.gov).

## SUPPLEMENTARY INFORMATION:

### I. Public Participation

Interested persons are invited to comment on this notice by submitting written data, views, or arguments using the method identified in the **ADDRESSES** section. All members of the public, including, but not limited to, specialists

in the field, academic experts, industry, public interest groups, and those with relevant economic expertise, are invited to comment.

## II. Background

An SBOM is a nested inventory, a list of ingredients that make up software components. The National Telecommunications and Information Administration (NTIA) published "Minimum Elements for a Software Bill of Materials (SBOM)" on July 12, 2021 (2021 NTIA SBOM Minimum Elements), as directed by Executive Order (E.O.) 14028. These minimum elements marked an important milestone for the NTIA's SBOM advancement efforts and established basic specifications for software producers and tool developers. This 2021 document was designed to establish a baseline of what the U.S. Government considered an SBOM to minimize variation in what was submitted.

In 2021, software producers and consumers alike were largely unfamiliar with SBOM. SBOM implementation practices were only just emerging and options for tools to create and manage SBOMs were limited. The 2021 NTIA SBOM Minimum Elements reflected the state of practice at the time. On September 14, 2022, the Office of Management and Budget issued memorandum M-22-18, "Enhancing the Security of the Software Supply Chain through Secure Software Development Practices," which indicates that CISA would produce successor guidance to the 2021 NTIA SBOM Minimum Elements.

For instance, the SBOM tooling landscape has expanded beyond SBOM generation to include, among other capabilities, sharing, analyzing, and managing SBOMs. The SBOM community has also grown to include stakeholders from an even greater number of industries and sectors. Open source software communities have also been active in driving forward the development of machine-processable SBOM operations. Experts from across the software ecosystem identified new use cases and applications for SBOM data. Cybersecurity organizations around the world have issued their own guidance on SBOM. As a result of these developments, the overall maturity of SBOM implementation has grown significantly since 2021.

The 2025 CISA SBOM Minimum Elements reflect the expanded capabilities and functionalities of SBOM tooling, the increased maturity of SBOM implementation, and the value of software supply chain data. Although statutes, regulations, and binding
