This agency collection should be terminated immediately due to the existing violations of the existing contract. In the timeline of renewals, a change was made to the original OMB identification number and violates regulations of OMB system. The Federal Trade Commission is not part of the rule making process in the OMB system as well. Lastly, telephone orders would need proper consent prior to purchase of any device or service, and this was not part of the contract. Since 1995, this contract alone has been in place for decades and has cost the taxpayers a substantial sum of unnecessary expenses for a contract that should not have been implemented to begin with.
