Dear CMS,

Please find below our comments on the **Part C and Part D Medicare Prescription Payment Plan Model Documents (CMS-10882) – IRA.**

OMB CONTROL NUMBER: [0938-1475](#)

ICR REFERENCE NUMBER: [202507-0938-023](#)

Exhibit 3 – Part D Sponsor Notice to Acknowledge Acceptance of Election to the Medicare Prescription Payment Plan- could be clarified by changing the following section to include the additional clarifications in **red text**:

How is my monthly bill calculated?

Your monthly bill is based on what you would have paid for any prescriptions you get, plus your previous month's balance, divided by the number of months left in the year.

Your payments might change every month, so you might not know what your exact bill will be ahead of time. We calculate your first month's bill differently than your bill for the rest of the months in the year. If you have any questions on how your Medicare Prescription Payment Plan amount is calculated, you can call us at [phone number], [days and hours of operation].

Future payments might increase when you fill a new prescription (or refill an existing prescription) because as new out-of-pocket costs get added to your monthly payment, there are fewer months left in the year to spread out your remaining payments.

Thank you for the opportunity to provide comment. Please let us know if additional information is required.

Regards,

Kirstin Barros
