There are very few resources available to disabled persons that are not elderly or children. Most assistance programs target minorities leaving the MAJORITY with no assistance resources

Of the homeless population in California only 15 percent are drug addicts

43 percent are disabled

46 percent are elderly

8 percent are children

most are white

most are age 18 to 55

55 percent of them are actively looking for work. It is unfair that the MAJORITY are not qualified for assistance. This is not equity OR equality and to say that certain minorities have more rights for any reason is a form of discrimination and should be against the LAW.
