THIS IS A TEST CASE FOR VICAP USE ONLY <<Do not delete this line of text>>

<<Do not delete>>

A couple of notes for using this test case:

- 1) We are adding information in the Holdback section so it will never show up in any search results for general ViCAP users. Of course, it may show up in our search results, but knowing this is a test case, you know not to bother opening the case if you see it. But bottom line: as you are in the case, always leave the case in Holdback status (i.e., don't delete the text in the Holdback section).
- 2) For Q#88, Similar Linked Cases, do not add any cases using the ViCAP number to populate the fields. Manual entry of the fields is OK.
- 3) **Do not use Q#89, Connected Cases, at any time!**

Texas Training Only: The victim's name for this case is a pseudonym. Then continue with the narrative of what exactly happened to the victim, not just that the victim was sexually assaulted, the details are needed.

<<Do not delete>>

Test information can go anywhere in this section.
