Comment

I appreciate the initiative of the NHTSA in proposing this study to gain greater insight into the decisions of motorcycle riders to use protective equipment. I find it significant that 15% of ALL traffic fatalities are represented by motorcycle riders. Through this survey and understanding of the proposed budget we hope the NHTSA will understand what deters riders from using safety equipment and help further incentivize the usage of such. Motorcycle riding is dangerous and we need to protect all riders and this could help save lives.
