Comment

I am a motorcyclist in the state of Utah and I think there is a lot to learn from data that is collected. I have had many friends that have been in motorcycle accidents and many of which usually have a solid injury from it. I think being able to preform this study would allow for greater knowledge as to what helps in certain situations. I think that looking at this from the aspect of accidents and how gear has helped in that could make this study even more benefical.
