Comment

I am writing in support of the Federal Highway Administration's request for reinstatement of the information collection for the Wildlife Crossings Pilot Program. This program plays a vital role in reducing wildlife-vehicle collisions and improving habitat connectivity, which benefits public safety, ecological health, and community well-being.

I believe the collection of project information is necessary to ensure funds are awarded responsibly and outcomes are measurable. At the same time, I encourage FHWA to continue streamlining the process and supporting electronic submissions to reduce burden on applicants.

Thank you for continuing to invest in solutions that protect both people and wildlife.
