NHTSA-2025-0053-0001 OMB 2127-0535

This agency collection needs to be reviewed and researched for possible violations during the active contract agreement timeline to determine the all activities that occurred during the contract prior to 2006. For this circumstance, the Director of the OMB has the duty of taking the necessary steps to follow Executive Orders from the President related to this matter. The directive actions need to followed accordingly.
