commerce. These shippers conceal the true contents of shipments sent to the United States through deceptive shipping practices. Some of the techniques employed by these shippers to conceal the true contents of the shipments, the identity of the distributors, and the country of origin of the imports include the use of reshippers in the United States, false invoices, fraudulent postage, and deceptive packaging. The risks of evasion, deception, and illicit-drug importation are particularly high for low-value articles that have been eligible for duty-free de minimis treatment.

Independently, the President also determined that it is necessary and appropriate to suspend duty-free de minimis treatment under 19 U.S.C. 1321(a)(2)(C) for certain Mexican goods to deal with the emergency declared in Executive Order 14194, as amended. In the President's judgment, and for substantially similar reasons as above, this suspension is necessary and appropriate to ensure that the tariffs imposed by Executive Order 14194, as amended, are effective in addressing the emergency declared in Executive Order 14194 and that the purpose of this action and other actions to address the emergency declared in Executive Order 14194 is not undermined.

Independently, and after considering information newly provided by the Secretary of Commerce, among other things, the President determined that it is still necessary and appropriate to continue to suspend duty-free de minimis treatment under 19 U.S.C. 1321(a)(2)(C) for certain goods of the PRC and Hong Kong to deal with the emergency declared in Executive Order 14195, as amended. In the President's judgment, and for substantially similar reasons as above, this suspension is still necessary and appropriate to ensure that the tariffs imposed by Executive Order 14195, as amended, are effective in addressing the emergency declared in Executive Order 14195 and that the purpose of this action and other actions to address the emergency declared in Executive Order 14195 is not undermined.

Also independently, the President determined that it is necessary and appropriate to suspend duty-free de minimis treatment under 19 U.S.C. 1321(a)(2)(C) on a global basis to deal with the emergency declared in Executive Order 14257, as amended. In the President's judgment, this suspension is necessary and appropriate to ensure that the tariffs imposed by Executive Order 14257, as amended, are not evaded and are effective in

addressing the emergency declared in Executive Order 14257 and that the purpose of this action and other actions to address the emergency declared in Executive Order 14257 is not undermined.

The following modified information collection listed below is being submitted to OMB for consideration of approval on an emergency clearance, with the justification of an unanticipated event and reasons to believe following the normal PRA process is likely to prevent or disrupt the collection of information and cause public harm.

Modification of the CBP International Mail Duty Worksheet

In order for carriers to submit the information required by E.O. 14324, as amended, carriers will fill out the modified CBP International Mail Duty Worksheet (IMDW) and submit it via email to CBPDM@cbp.gov and IntlMailDutyHelp@cbp.dhs.gov.

CBP invites the public to comment on the previously approved emergency changes described above.

Type of Information Collection: International Mail Duty Worksheet. Estimated Number of Respondents: 100.

Estimated Number of Annual Responses per Respondent: 12. Estimated Number of Total Annual Responses: 1,200.

Estimated Time per Response: 2 hours.

SUPPLEMENTARY INFORMATION: CBP invites the general public and other Federal agencies to comment on the proposed and/or continuing information collections pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). This proposed information collection was previously published in the Federal Register (90 FR 46624) on September 29, 2025, allowing for a 60day comment period. This notice allows for an additional 30 days for public comments. This process is conducted in accordance with 5 CFR 1320.8. Written comments and suggestions from the public and affected agencies should address one or more of the following four points: (1) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3)

suggestions to enhance the quality, utility, and clarity of the information to be collected; and (4) suggestions to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. The comments that are submitted will be summarized and included in the request for approval. All comments will become a matter of public record.

Overview of This Information Collection

Title: Entry Summary.

OMB Number: 1651–0022.

Form Number: 7501.

Current Actions: Revision.

Type of Review: Revision.

Affected Public: Importer, importer's agent for each import transaction.

Abstract: CBP Form 7501, Entry Summary, is used to identify merchandise entering the commerce of the United States, and to document the amount of duty and/or tax paid. CBP Form 7501 is submitted by the importer, or the importer's agent, for each import transaction. The data on this form is used by CBP as a record of the import transaction; to collect the proper duty, taxes, certifications, and enforcement information; and to provide data to the U.S. Census Bureau for statistical purposes. CBP Form 7501 must be filed within 10 working days from the time of entry of merchandise into the United States. Collection of the data on this form is authorized by 19 U.S.C. 1484 and provided for by 19 CFR 141.61 and 19 CFR 142.11. CBP Form 7501 and accompanying instructions can be found at: https://www.cbp.gov/newsroom/ publications/forms?title 1=7501.

Previously approved revision to Form 7501:

For certain Harmonized Tariff Schedule (HTS) classifications of steel imports, the country where the steel used in the manufacture of the product was melted and poured; the country where the steel used in the manufacture of the product was melted and poured applies to the original location where the raw steel is first produced in a steelmaking furnace in a liquid state; and then poured into its first solid shape.

For certain HTS classifications of aluminum imports, the countries where the largest and second largest volume of primary aluminum used in the manufacture of the imported aluminum product was smelted; and the country where the aluminum used in the imported aluminum product was most recently cast. The fields requiring identification of the countries where the largest volume of primary aluminum used in the manufacture of the product was smelted applies to the country where the largest volume of new aluminum metal is produced from alumina (or aluminum oxide) by the electrolytic Hall-Héroult process. Importers may be required to report if primary aluminum from specific countries is used in the imported aluminum product, if required by law and/or Presidential Proclamation.¹

Importers will be required to report on Form 7501 the steel country of melt and pour and aluminum countries of smelt and cast for imports under those steel and aluminum HTS classifications subject to the Commerce Department's steel and aluminum import license applications, and where applicable, the Section 232 steel and aluminum measures.

The data elements align the Form 7501 reporting requirements with the Commerce Department's existing reporting requirements for steel melt and pour and aluminum smelt and cast countries for steel and aluminum import license applications under 19 CFR 360.103(c)(1) and 19 CFR 361.103(c)(1). The aluminum and steel license application information is used by the Commerce Department for monitoring of anticipated imports of certain aluminum and steel products into the United States. The Form 7501 data is used by CBP to determine, when imports are entered for consumption, the proper number of duties, applicable fees, taxes, and imports subject to quota.

These data fields are also required to enforce the tariff rate quotas for imported steel and aluminum established by the following Presidential Proclamations under section 232 of the Trade Expansion Act of 1962, as amended: for products of the European Union, Proclamation 10327 of December 27, 2021 (87 FR 1, January 3, 2022) and Proclamation 10328 of December 27, 2021 (87 FR 11, January 3, 2022); for products of Japan (steelonly), Proclamation 10356 of March 31, 2022 (87 FR 19351, April 1, 2022); and for products of the United Kingdom, Proclamation 10405 of May 31, 2022 (87

FR 33583, June 3, 2022) and Proclamation 10406 of May 31, 2022 (87 FR 33591, June 3, 2022); and any amendments to these Proclamations.

Overview of This Information Collection

Title: United States-Caribbean Basin Trade Partnership Act (CBTPA).

OMB Number: 1651–0083.
Form Number: CBP Form 450.
Current Actions: Reinstatement.
Type of Review: Reinstatement
(without change).

Affected Public: Businesses.

Abstract: The provisions of the United States-Caribbean Basin Trade Partnership Act (CBTPA) were adopted by the U.S. with the enactment of the Trade and Development Act of 2000 (Pub. L.106-200). The objective of the CBTPA is to expand trade benefits to countries in the Caribbean Basin. For preferential duty treatment under CBTPA, importers are required to have a CBTPA Certificate of Origin (CBP Form 450) in their possession at the time of the preference claim, and to provide it to CBP upon request. CBP Form 450 collects data such as contact information for the exporter, importer, and producer, as well as information about the goods being claimed and provides instructions for its completion.

This collection of information is provided for by 19 CFR 10.234, 10.236, part 134, 10.195, and 102.21. CBP Form 450 is accessible at: https://www.cbp.gov/newsroom/publications/forms?title 1=450.

This collection of information applies to the import and trade community, who are familiar with import procedures and with CBP regulations.

Type of Information Collection: CBTPA Certificate of Origin (Form 450). Estimated Number of Respondents: 15.

Estimated Number of Annual Responses per Respondent: 286. Estimated Number of Total Annual Responses: 4,290.

Estimated Time per Response: 2 hours.

Estimated Total Annual Burden Hours: 8,580.
