Written comments and suggestions from the public and affected agencies should address one or more of the following four points: (1) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) suggestions to enhance the quality, utility, and clarity of the information to be collected; and (4) suggestions to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. The comments that are submitted will be summarized and included in the request for approval. All comments will become a matter of public record.**Overview of This Information Collection***Title:* Entry/Immediate Delivery Application and ACE Cargo Release.*OMB Number:* 1651–0024.*Form Number:* 3461 + 3461 ALT.*Current Actions:* Revision.*Type of Review:* Revision.*Affected Public:* Businesses.*Abstract:* All items imported into the United States are subject to examination before entering the commerce of the United States. There are two procedures available to affect the release of imported merchandise, including “entry” pursuant to 19 U.S.C. 1484, and “immediate delivery” pursuant to 19 U.S.C. 1448(b). Under both procedures, CBP Forms 3461, Entry/Immediate Delivery, and 3461 ALT are the source documents in the packages presented to Customs and Border Protection (CBP). The information collected on CBP Forms 3461 and 3461 ALT allow CBP officers to verify that the information regarding the consignee and shipment is correct and that a bond is on file with CBP. CBP also uses these forms to close out the manifest and to establish the obligation to pay estimated duties in the time period prescribed by law or

regulation. CBP Form 3461 is also a delivery authorization document and is given to the importing carrier to authorize the release of the merchandise.

CBP Forms 3461 and 3461 ALT are provided for by 19 CFR 142.3, 142.16, 141.22, and 141.24. The forms and instructions for Form 3461 are accessible at: <https://www.cbp.gov/newsroom/publications/forms?title=3461&=Apply>.ACE Cargo Release (formerly referred to as “Simplified Entry”) is a program for ACE entry summary filers in which importers or brokers may file ACE Cargo Release data in lieu of filing the CBP Form 3461. This data consists of 12 required elements: importer of record; buyer name and address; buyer employer identification number (consignee number), seller name and address; manufacturer/supplier name and address; Harmonized Tariff Schedule 10-digit number; country of origin; bill of lading; house air waybill number; bill of lading issuer code; entry number; entry type; and estimated shipment value. There are also four optional data elements: the container stuffing location, consolidator name and address, ship to party name and address. There are three Global Business Identifier (GBI) identifiers available to filers: 20-digit Legal Entity Identifier (LEI), 9-digit Data Universal Numbering System (DUNS), and 13-digit Global Location Number (GLN). The GBI Identifiers can be inputted for any of the following parties: manufacturer/producer, seller shipper, exporter, distributor or packager. The GBI identifiers are new optional data elements that are being collected to better identify the legal entity that is interacting with CBP as well as explore opportunities to enhance supply chain traceability and visibility in response to the growing complexity of global trade. The data collected under the ACE Cargo Release program is intended to reduce transaction costs, expedite cargo release, and enhance cargo security. ACE Cargo Release filing minimizes the redundancy of data submitted by the filer to CBP through receiving carrier data from the carrier. This design allows the participants to file earlier in the transportation flow. Guidance on using ACE Cargo Release may be found at <http://www.cbp.gov/trade/ace/features>.

It should be noted that ACE Cargo Release was previously called Simplified Entry.

New Changes:1. *Global Business Identifier (GBI):* Collectively, the updates proposed below aim to enhance upstream supply chain traceability and visibility while

addressing the increasing complexity of global trade supply chains. All participation and data submitted is voluntary. Find more details about GBI in the 1651–0141 GBI information collection.

■ The GBI Test is expanding the available supply chain entity party types from the original six optional parties (Manufacturer, Shipper, Seller, Exporter, Distributor, Packager), to include two new parties: “Intermediary” and “Source,” along with optional free text fields that will allow filers to input additional descriptions and information about the specific party type. These party types would be made available in the GBI Enrollment database as well as the Automated Commercial Environment Cargo Release.

■ A modification within the Global Business Identifiers (GBI) Enrollment database will allow the trade to submit one or more of the unique GBI’s (the Legal Entity Identifier (LEI), Global Location Number (GLN), and Data Universal Numbering System (DUNS)) for a supply chain entity, as opposed to all three as previously approved and announced. Furthermore, a related programming update will enable trade participants the ability to modify or change a previous enrollment, including updating or adding additional GBI numbers.

■ CBP intends to expand the choices of identifiers available to filers over the duration of the Test, including those that at no cost to the government provide access to the underlying entity and product specific supply chain data associated with the identifier. This would enhance traceability for CBP which may translate to facilitation benefits and reduced industry costs. CBP has initiated programming requests in ACE to accommodate the intake of additional GBI identifier qualifiers. These changes are under development and there is no defined timeline for their completion. Specifically, CBP will begin by adding to the GBI Test the new Altana ID (ALTA) maintained by Altana Technologies, USG Inc. (Altana). The addition of the ALTA identifier alongside current and future GBI identifiers will widen participants’ choices and allow CBP to continue to evaluate the breadth and veracity of entity and supply chain information embedded within different types of identifier solutions already being leveraged by trade industry traceability stewards. It will also contribute to CBP’s ongoing exploration of how traced supply chain information may be ingested and operationalized for risk management and facilitation purposes.

CBP will add any new identifiers into the collection and submit to OMB for approval as they are determined through a change request (Form 83–C).

2. Russian Sanctions Executive Order 14114:

■ New Data Elements are being added to comply with the Russian sanctions outlined in Executive Order 14114 published on December 22, 2023. The data elements and burden are recorded in the supporting statement of the 1651–ONEW Russian Sanctions information collection package.

3. Update to Form 3461/3461ALT Instructions: The instructions on the Form 3461/3461 ALT have been updated to include the new Russian sanctions data elements and text field boxes, as well as being updated to improve user experience and clarity of the form. Find a copy of the new form, with the changes outlined included with this package submission as supplementary documents.

Notice of Availability; Crossroads-Hobbs-Roadrunner Transmission Project Habitat Conservation Plan and Draft Environmental Assessment; Roosevelt and Lea Counties, New Mexico

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, received an application from Nextera Energy Transmission Southwest, LLC for an incidental take permit (permit) supported by the *Crossroads-Hobbs-Roadrunner Transmission Project: Dunes Sagebrush Lizard Habitat Conservation Plan* (CTHCP) in Roosevelt and Lea counties, New Mexico. The CTHCP includes a proposed plan to build 137 miles of 345-kV transmission line in Roosevelt and Lea Counties. With this notice, we announce the availability for public comment of the proposed CTHCP and the draft environmental assessment (draft EA). If approved, the requested permit would authorize incidental take of the dunes sagebrush lizard. We invite comments from the public and Federal, Tribal, State, and local governments. **DATES:** We must receive your written comments on or before December 31, 2025.

ADDRESSES:

Obtaining Documents: The documents this notice announces, as well as any comments and materials that we receive, will be available for public inspection online in Docket No. FWS–R2–ES–2025–0053 at <https://www.regulations.gov>.

Submitting Comments: If you wish to submit comments on any of the documents, you may do so in writing by one of the following methods:
