Comment

peace is a move by trump to kill endangered species so he can desecrate our public lands and the us public does not support that. the us public has always supported protection of our public lands and wildlife. this has nzero public support and is pushed by selfish, moneymaking profiteers to kill nature and gods creatures.animal protection groups are givenshort shrift. they don't exist on any fish and wildlife groups in any state in this nation. animal protection groups are blackballed when they get 99 % support from the citizens of this gourtny. the people are wanting to save wildlife/animals in our forest. they know that the forests cant exist wthoutanimals. no public lands can.destroying the ecological scheme destroys forests and they make the oxygen we greateh.this attack on species for greeed by trump and it needs to be stopped. the public wants a working ecological scheme and that includes protection 3ndangered species who are under increased threat.deny peace as the propaganda it is. the lies that piece is.throiw pece in wastebasketas it has no public support.
