Infomration Collection Review Response

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
  - The collection of information is needed to adequately support the coordination between the agreement States and the U.S. NRC. It provides a pathway for States to work collaboratively with the NRC to ensure that States can observe inspections and entrance and exit meetings of nuclear power plants within their State.
2. Is the burden estimate accurate?
  - No comment to offer.
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
  - No comment to offer.
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?
  - A preformatted letter that includes the necessary details the States must submit when making a request to observe an inspection may prove to helpful and reduce redundancies.
