Good afternoon April,

Two weeks shouldn't set our project schedule back too much! I'll work with Julia to make sure we address the comments and include the information in Part A as well. Hopefully it'll be a quick review once we incorporate the feedback and changes!

Thank you for the heads up and hope you enjoy your leave!
Sincerely,
Tammy

Hi Tammy,

I reviewed your package. Sorry I didn't get to this earlier in the week because I'll be out the next two weeks.

My only remaining comment is that I think you need to explain what the three groups are and why you have three groups. I've highlighted the spot in part B, but this may also belong in the introductory material in Part A as well when you're explaining the goals of the study. I'd like to see it again. Would the two weeks impact your schedule?

Thank you,
April

Hi Tammy,

I've reviewed your package. I've left some comments where I think it needs some more detail. It also seemed that it may not have been complete, particularly Part A has a note about needing to complete a section that didn't have any text. Please update and send back with track changes.

Thanks,
April
