## **ViCAP Case Submission Form**

## National Center for the Analysis of Violent Crime (NCAVC)

The NCAVC is a law enforcement-oriented behavioral and data analysis center which provides behaviorally-based operational support to federal, state, local, tribal, and foreign law enforcement, intelligence and security agencies.

## Violent Criminal Apprehension Program (ViCAP)

Established in 1985, ViCAP serves as the national repository for violent crimes. It is a web-based application available to law enforcement agencies nationwide through connectivity of the Law Enforcement Online (LEO) network. ViCAP Web enables law enforcement agencies to enter and analyze their own violent crime information on a local level, and facilitates the identification of similar cases on a regional, state, and national basis.

## **Submission Criteria**

The ViCAP Web National Crime Database is designed to collect information regarding the following types of crimes whether or not the offender has been arrested and/or identified:

- Homicides and attempted homicides, especially those that (a) involve an abduction, (b) are apparently random, motiveless, or sexually oriented, or (c) are known or suspected to be part of a series.
- Sexual assaults, especially those that (a) were committed by a stranger or (b) are known or suspected to be part of a series.
- **Missing persons**, where the circumstances indicate a strong possibility of foul play and the victim is still missing.
- Unidentified human remains, where the manner of death is known or suspected to be homicide.

If questions arise regarding whether a case meets the listed criteria, please contact FBI ViCAP for guidance.

## **Electronic Submission**

Cases received in hard copy form will be entered into the ViCAP Web National Crime Database by FBI ViCAP personnel. However, law enforcement agencies have the option of entering their cases directly, via Law Enforcement Online (LEO). Access to ViCAP Web also allows agencies to conduct simple and complex searches for cases nationwide. For information on how to gain access to ViCAP Web, contact FBI ViCAP and request the analyst assigned to your state.

## Instructions

- Follow directions associated with each question, such as "check all that apply" and "describe below."
- If in doubt about how to respond to a given item, be guided by your experience and good judgment. For additional assistance, contact FBI ViCAP and request the analyst assigned to your state.
- If your incident has multiple victims or offenders, copy the appropriate sections of this form and provide separate information for each individual.
- If your case includes details that you believe are important but have not been covered by the ViCAP Case Submission Form, please include them in the narrative section (question 101).
- If at any point you are unable to fit information into the form due to space restrictions, be sure to add it in the table for supplemental information located at the end of this booklet.
- If you wish to provide supplemental or revised information for a case previously submitted to FBI ViCAP, please contact the analyst assigned to your state directly, via phone or email. Note that you can also update/modify your own cases via ViCAP Web.
- If you are interested in obtaining interview, investigative, or media strategies, or a behavioral assessment/profile on this case, please contact the nearest FBI Field Office and ask to speak to the NCAVC Coordinator. This individual will provide information and guidance in this area.

## Attachments

The ViCAP Web application supports the upload of text documents, electronic images, and other files (e.g., Microsoft Office files, small video clips). Each attachment can not exceed 100 MB in size, and only files with certain extensions can be accepted (list available upon request).

Once imported into ViCAP Web, all attachments are viewable according to case access/user role.

Attachments should be submitted in electronic format, if possible. If only hard copies are available, attach them to this form and indicate that you would like them scanned and uploaded for you.

Examples of appropriate attachments include items such as suspect/offender photos, timelines, crime scene photos, autopsy reports and photos, composites, facial reconstructions, bulletins, and vehicle photos.

## **Supplemental Information**

If at any point during the completion of this form, you were unable to include all pertinent information – such as similar/linked cases, tattoos or bindings – please include that information in the table below. Indicate the question number and the question topic, and then enter the information as free text. This information will be added to the appropriate question when the case is entered into ViCAP Web.
