General Comment

there is much waste, mismanagement and fiscal irresponsibility in this agency. i dont see why this agency will pay out 5 or 6 times to the same people who got hurt in a flood. after 2 times, the people need to be relocated. they need to be told they can not live there. mother nature will not give up. in bound brook nj this has been flooded about 6 times in 6 years and yet taxpqayer dollars keep gonig into help people who are not even us citizens,. there are many illegal immigrants living in bound brook and us tax dollars are going to them. they should not even be living in the us. this is why american citizens are losing their homes -d ue to high taxes for these sneaking lawbreaking illegals. there is much bogus claims being paid. the investigation is sloppy, lax and negligent so that american tax dollars are horribly wasted in this program. we need to help people who need help, but not illegal immigrants who should not bein this country in the first place. help them to leave immediately. and secondly not for the same flood occuring over and over and over. get them out of sites that should not be livedon.
