Re: OSHA Docket Office Docket No OSHA- 2011-0008

To whom it may concern:

I have been a dockbuilder in Local No. 1456 for over 30 years. I'm writing to express my concern for the welfare of divers, a group I have worked with for most of those years. I'm disheartened about their working conditions in the greater New York area and I am appealing to your organization for enforcement of better standards and support.

Sincerely,

  
James Leslie
