Subject: RE: Federal Register Notice on EIA uranium surveys

Doug,

I don't really understand the proposed change to Item 5. Since SNC maintains feed inventory at the enrichment facilities to cover the next withdraw it would seem SNC would leave Item 5 blank since all our deliveries go to inventory. Also there is no way of knowing what the enrichment country would be since delivery is made at the converter.

Please help me understand the EIA's concerns so that we can reply appropriately?

Thanks,

Don

Don Hagan,

The purpose of this email is to alert you to the Federal Register notice that the U.S. Energy Information Administration (EIA) intends to extend for 3 years and is proposing changes to their uranium surveys that will affect the Form EIA-851A, Form EIA-851Q, and Form EIA-858.

This Federal Register notice is at
<https://www.federalregister.gov/articles/2012/03/26/2012-7194/agency-information-collection-extension>

Further information and the draft uranium survey forms and instructions are on the EIA website at:
