REPORTING INSTRUCTIONS FOR
PRIVATE CONSTRUCTION PROJECTS

► Section A – PROJECT IDENTIFICATION

Correct any information in items 1 and 2 if necessary.

For the project described in item 1 to be privately owned, it must be privately owned **during construction** and involve the erection of a new structure(s) or improvements to an existing structure(s) as defined below.

For the project described in item 1 to be government owned, it must be State or local government owned **during construction** and involve the erection of a new structure(s) or improvements to an existing structure(s) as defined below.

If the project is only maintenance and repairs, please note so in item 11, Remarks, complete item 12, and return the form.

► Section B – OWNERSHIP AND START DATE

Item 3 – As noted, "ownership" for purposes of this survey depends on the owner **during the construction phase**. Check the appropriate box.

Item 4 – The start date is defined as the date that actual construction work first began on the project described in item 1. If the project is to start at some future date, please enter the date, complete item 12, and return the form.

► Section C – COST ESTIMATES

"Construction," for purposes of this survey, is defined as the building of and/or improvements to fixed structures. This **INCLUDES**:

- a. New structures, additions, alterations, conversions, expansions, rebuilding, reconstruction, renovations, rehabilitations and major replacements (such as the complete replacement of a roof or heating system).
- b. Mechanical and electrical installations – Plumbing, heating, electrical work, elevators, escalators, central air-conditioning, and other similar building services.
- c. Outside construction – Clearing and grading of undeveloped land and the fixed, auxiliary structures which the project owner builds within the property lines. Also roadways, bridges, parking lots, utility connections, outdoor lighting, pools, athletic fields, piers, wharves and docks, and all similar auxiliary facilities.

FOR INDUSTRIAL STRUCTURES

In addition to a, b, and c, construction **INCLUDES**:

- d. Fixed, largely site-fabricated equipment which is not housed in a building, primarily for petroleum refineries and chemical plants, but also including storage tanks, refrigeration systems, etc.
- e. The cost and installation of **construction** materials placed inside an industrial building and used to **support** production machinery, for example: concrete platforms, overhead steel girders, and pipes to carry paint, etc. from storage tanks.
- f. The following types of equipment: boilers, overhead hoists and cranes, and blast furnaces.

EXCLUDE: The cost and installation of **production** machinery not listed above, such as industrial robots, stamping machinery, printing presses, bottling machines, packaging equipment, generators, compressors, motors, computer systems, etc. *See item 7.*

Item 5a – Estimate the total amount to be paid to construction contractors by the project owner for work done on this project.

Item 5b – Estimate the total cost of labor by the owner’s construction employees working on the project, including supervisory personnel assigned to the project. Include the total cost of all construction materials supplied by the owner, including those the owner expects to supply to the contractor for installation in this project.

Item 5c – Sum of values reported in items 5a and 5b. **This is the value to be reported in item 9**, monthly value of construction put in place.

Item 6 – Estimate the total amount of fees which the project owner has paid or will pay to architectural and engineering firms for work on this project. Also estimate the total cost of all other construction items which the project owner will allocate on his books to this project. Include the project owner’s overhead and office costs, interest and taxes paid during construction, the cost of design work by the owner’s staff, and other miscellaneous construction fees and costs allocated on the owner’s books. **DO NOT** include the cost of production machinery and equipment, land, and furniture and furnishings.

Item 7 – Estimate the total amount of all capital expenditures, which you expect to make on this project, not reported in items 5a, 5b, 5c, and 6. Include production machinery and equipment, furniture, office equipment and other movable equipment.

► Section E – MONTHLY CONSTRUCTION
PROGRESS REPORT

Item 9 – Report the monthly value of construction put in place for **the costs associated with item 5c**. These costs include:

- a. Work done by contractors and/or subcontractors, including any retainage being withheld until the work is complete.
- b. The cost of any materials installed which were provided by the owner.
- c. The work done by the project owner’s own construction employees, including supervisory personnel assigned to this project.

Initially, report monthly values from the start month to the most current month shown in item 9. Then each month, when the form is returned to you, report for the month shown and any revisions which you might have. When entering monthly data, **be sure to report the costs in the month in which the work was done rather than in the month in which payment was made.**

If the contractor’s bills are for periods other than monthly, estimate a monthly amount. In each month where there is no construction, enter a zero.

Item 10 – If construction is complete except for some minor work or retainage (up to 3 percent of item 5c), you may stop reporting on this project by indicating in item 11, Remarks, and entering the completion date in item 10.

► Section F – PERSON TO CONTACT REGARDING
THIS REPORT

Item 12 – Enter the name, title, address, telephone and fax number of the person who can answer questions about this report.
