General Comment

Raiders rule!!

This agency is again trying to put on over on the american public. No forms or other passes are needed for travel here in this great country. This is a free country and no limitations on travel should apply. Is this communist russia or democratic america? This great land was founded by many men years ago we fought with the french the indians the germans the irish the italians and many others to take over this country and be free to travel from coast to coast.

I feel that my meat should also travel without restrictions and that further agency mismanagement of vital resources. OUR water must be PURE!!!!!!!!!!!!!!!!!!!!!!!!!!!!

This agency continues to show the american people a disregard of its heritagae, they need to go out and see people and talk to them and find out what we care about and what is important here in this awesome rocking nation.

Meat and poultry should travel free no papers or checkpoints or forms or other nonsense to slow commerce.

Peace and love Satbhir!!!!!!!!!!!!!!
