Table 13 - Medical Surveillance, Worker Time and Cost for Complete Initial Medical Examination, New Workers

Cost = Burden Hours * WorkerWage

Hours = (W>PELRU * SEP * PERNEW) * (PERHSCR * (EXAM + TRVL))

Variables (Sources: PEA Tables V-10, V-12, V-39 and V-40 and supporting ERG "Program Costs" spreadsheets, "Medical Surveillance" and "Surveillance Costs")

W>PELRU = # of workers above PEL and wearing respirators

SEP = separations rate (layoffs, quits and retirements)

PERNEW = percentage of new workers requiring initial medical examination

PERHSCR = percentage of medical examinations (onsite or offsite)

INIT-NEW = # of new workers completing initial medical examination

EXAM = hours of worker time to complete initial medical examination (2 hours), including:

- complete occupational health history survey, including medical questionnaire for respirator use
- physical examination by knowledgeable HCP, including follow-up evaluation for respirator use, if needed
- chest x-ray
- pulmonary function test
- dermal TB test
- other necessary tests

TRVL = hours of worker travel time to off-site location

Wage Rate = \$ per hour

Chest-xray classified by a NIOSH-certified B Reader - \$118.80

Pulmonary function test - \$54.69

Other necessary tests - \$60.00; assumed required by 10 percent of workers or \$6.00/worker

TRI		TRICOST		Item 13 - Direct Costs for Triennial Medical Screenings
442,687*	*	\$312.82	=	\$138,481,347

Table 20 - Medical Surveillance, Worker Time and Cost to Complete TB Testing During Periodic Medical Examination (Year 3 after implementation)

Cost = Burden Hours * WorkerWage

Return Read Hours = (TRI * PERTEST) * (READ + TRVL)

Variables (Sources: PEA Tables V-10 and V39 and supporting ERG spreadsheets)

TRI = # of workers completing periodic (triennial) medical examinations (Table 19)

PERTEST = percentage of workers recommended for periodic testing

TBTRI = # of workers completing TB test in third year

READ = hours of worker time for return reading (5 minutes (.08 hours))

**Note: Worker time for the dermal TB test is included in the cost for periodic health screening.*

TRVL = hours of worker travel time to off-site location for return reading

Wage Rate = \$ per hour
