iu do not support this spending, which is useless and far too expensive. taxpayers are being gouged by this agency. the us census just did a census in 2010 which can be used for this information. in addition, this agency gets unemployment insurance reports on wages, etc. that can be used. this endless surveying when you have the information already in the us govt is a real waste. this is a waste of american tax dollars. we need smaller, cheaper govt. cut the budget for this agency. this comment is for the public record. jean public
