General Comment

we have two federal agencies gouging american taxpayers for wasted tax dollars the sport fishing and boating council of the fws and the us coast guard. to me, the coast guard should be fully in charge of boating. i see absolutely no reason why taxpayers are being gouged to pay for the lobbying organization called the sport fishing and boating council, which obviously should be existing on private dollars and not gouging us taxpayers and pretending to be a federal agency working for the good of all americans, when clearly it is working for corporate profitability. when will the gouging of tax payers stop? when will we shut down obvious lobbying groups that should not be getting one cent of american taxpayers dollars like the sport fishing and boating council of the usfws. the excesses and out of control spending of this govt is oppressive. 1 out of 2 americans are living in poverty and they are being dunned for taxes so a boating council can operate wastefully, when they have no hope of ever in their lives getting on a boat. the washington excesses are disgusting and depraved. make some cuts here. the coast guard we need. take the money away from the boating council and give it to the coast guard, who should be defending this country's borders from the leaches massively sneaking in here.
