Lease payments should be disaggregated into the amounts that represent (i) the return of capital, consisting of the depreciation component for long-term operating leases, which should be reflected as a reduction in items A or B, and (ii) rent or net rent, which is not covered by this survey.
- The current quarter's opening balance should be equal to the prior quarter's closing balance; therefore, if it is necessary to translate the balance into U.S. dollars, use the same exchange rate to translate the opening balance for the current quarter as was used to translate the closing balance of the prior quarter.
