RE: *Federal Register* notice of April 1, 2013, for the Internal Revenue Service Forms W-2, Wage and Tax Statement; and W-3, Transmittal of Wage and Tax Statements (OMB Number: 1545-0008)

Dear Ms. Lawrence:

The Bureau of Economic Analysis (BEA) strongly supports the continued collection of data by the Internal Revenue Service (IRS) on Forms W-2 and W-3. Forms W-2 and W-3 are an important source of data for elective deferrals to deferred compensation plans. In conjunction with information on employment classification (statutory employee, retirement plan, or third-party sick pay), the data are used to develop improved estimates of pension contributions which is an income component in the national income and product accounts (NIPAs). In addition, BEA has periodically used data on wages, tips, and other compensation and on Medicare wages and tips to validate wage and salary estimates from other data sources. Also, the data are used indirectly for estimating government social benefits to persons. The attached table describes which data items are used and how they are used in the NIPAs.

Please keep BEA informed about any modifications to these forms. We are particularly interested in any modifications proposed during the forms' approval process that would substantially affect our use of these data. For additional information, please contact Ruth Bramblett, Source Data Coordinator, on 202-606-9653 or by e-mail at Ruth.Bramblett@bea.gov. Should you need assistance in justifying these forms to the Office of Management and Budget, please do not hesitate to contact BEA.

Sincerely,

Dennis J. Fixler
Chief Statistician
