fv 07 902-lnc producers of fresh fruits to work together to solve marketing
problems.

i think it is fine for them to get together to solve marketing problems, however
it is time that they dont get a free ride and pay for all of this folderol
themselves. it is past time. the usda has been pressuring general citizens not
in in this industry to cover everything but the kitchen sink for farmers and it
is time that farmers start covering all of these folderol things they like by
their own pocketbooks.
this kind of pampering needs to stop. usda should take the money spent on this
kind of crap and start inspecting the food supply that is coming into the united
states poisoned so that thousands of dogs and cats died from the poisoned food
and people ate it too
- god knows what illnesses and deaths will result from that.

usda is out of step with the times. we are importing huge amounts of food right
now NOT GROWING IT HERE AND YET THE AMOUNT OF MONEY KEEPS GROWING FOR A MARKET
THAT IS NOT EVEN HERE ANYMORE.

THIS MONEY SHOULD BE SPENT ON INSPECTING WHAT IS COMING INTO THIS COUNTRY. THE
POISONED IMPORTS NEED TO STOP. WE NEED THIS MONEY FOR ANOTHER PURPOSE.
