[REGULATIONS.GOV](#) IS NOT WORKING. I JUST WENT THERE AND PUT IN BOTH 2013-24183 WHICH DID NOT WORK AND THEN PUT IN FWS-R7-MM-2013-12229 AND THIS DID NOT WORK EITHER SO I AM WRITING A PUBLIC COMMENT. YOU SHOULD EXTEND TIME TO COMMENT THE KILLING IS NOT "INCIDENTAL" AT ALL. the commercial fish profiteers routinely take guns on board ship and they kill all marine life that they see. satellite needs to be used to look at what these boats are doing because they are killing all marine life that eats fish. the profiteers want it all for themselves and they are overfishing hugely. one thousand percent more than they admit to. these permits also are nothing but fakery for the general public. the ones who get permits are killing much more than they admit to. this comment is for the public record. please acknowledge receipt. jean public

SUPPLEMENTARY INFORMATION:

I. Abstract

This information collection includes requirements associated with specified oil and gas industry activities and their incidental taking of polar bears and Pacific walruses in the Beaufort and Chukchi Seas. The Marine Mammal Protection Act (MMPA) of 1972, as amended (16 U.S.C. 1361 et seq.) imposed, with certain exceptions, a moratorium on the taking of marine mammals. Section 101(a)(5)(A) of the MMPA directs the Secretary of the Interior to allow, upon request by citizens of the United States, the taking of small numbers of marine mammals incidental to specified activities (other than commercial fishing) if the

Secretary makes certain findings and prescribes specific regulations that, among other things, establish permissible methods of taking.

Applicants seeking to conduct activities must request a Letter of Authorization (LOA) for the specific activity and submit onsite monitoring reports and a final report of the activity to the Secretary. This is a nonform collection. Regulations at 50 CFR 18.27 outline the procedures and requirements for submitting a request. Specific regulations governing authorized activities in the Beaufort Sea are in 50 CFR part 18, subpart J. Regulations governing authorized activities in the Chukchi Sea are in 50 CFR part 18, subpart I. These regulations provide the applicant with a detailed description of information that we need to evaluate the proposed activity and determine whether or not to issue specific regulations and, subsequently, LOAs.

We use the information to verify the finding required to issue incidental take regulations, to decide if we should issue an LOA, and, if issued, what conditions should be in the LOA. In addition, we analyze the information to determine impacts to polar bears and Pacific walruses and the availability of those marine mammals for subsistence purposes of Alaska Natives.
