Re: Docket Number 0535--NEW

I hereby offer my strong support of the National Agricultural Statistic Service to begin collecting information on the production, consumption and stocks of oilseeds, fats and oils as specified in the Federal Register notice of May 2, 2013. As an analyst of the oilseeds sector having access to the information previously reported on a monthly basis by the U.S. census Bureau would be very helpful. I believe it is important to have this information publicly available to allow for better price discovery by the market.

Sincerely,

John Baize
President
