this form should be shut down and not used. this is illegal for illegal immigrants to get special issues. we have a constitution that says equal protection for all. this is special protection for those who get it because crooked politicians want crooked votes. the american people are being played for suckers since they end up paying for these illegal activities. each illegal kid brought into this country costs american taxpayers \$500,000 - 1/2 a million dollars for their upkeep. the american people are being forced into poverty and bankruptcy to pay the high taxes that this takes. those kids should be staying in their own country with their parents, not here steal from american citizens. american citizens are entitled to keep that 1/2 million dollars for their own children's benefit. this is a complete taking by crooked politicians looking to make big money staying in office in corrupt washington dc. the corruption in washington dc these days is immense. most of it consists of selling out the average american. this practice needs shut down. it is illegal. we have an immigration system that sets down rules for legal immigration. that is the only way anybody should be in america. the rest of the sneaking, lawbreaking criminal illegal immigrants and their entire families should be deported from this country. the financial burden on america is tremendous and in the trillions of dollars. in our financial decrepit condition in america, this cannot be allowed to continue.
