**Edward Larkin - Comments** 

This is a Comment on the Pipeline and Hazardous Materials Safety Administration (PHMSA) Notice: **Paperless Hazard Communications Pilot Program** 

For related information, Open Docket Folder 🖅

## Comment

I would like to place our company in the list of those who support this method of assisitng in the review of system changes prior to just making the change without the full knowledge to those being affected. We may not do a lot of HAZCOM shipping however we are believers in pretesting and preparing and anytime we can do this in the name of less paperwork and clutter, it has to be better for everyone. Thank You for your consideration.
