Comment

I am interested in volunteering to participate in the program. I am the hazardous materials manager for J.B Hunt - I believe the new program will be extremely useful for all parties, particularly on intermodal loads. Currently, the railroads are already using digital bills for their portion of travel; adopting paperless bills for the road portion would expedite having full and complete billing on final deliveries, cross towns, etc and will also make it easier to proactively identify improper shipping papers from the source.
