General Comment

Why do you people focus so much on tobacco when you already make us pay ten dollars a pack. If people don't like smoke do not walk close to me. Outside was a free country I thought but if it is outside of a high scale place it is not. Starbucks charges twenty dollars a cup and now they can tell you what to do on a public sidewalk outside the store. Why does the government not focus on alcohol. It kills people who don't even drink. It smells nasty and it makes people act like fools and idiots. No mind alterations. Driving down the road with a cig is a lot less likely to kill anyone than with a beer. We can't ad our product anywhere but alcohol supports all major sporting events and the best one is Nascar. No drinking and driving but a driving very fast is alright to be sponsored by beer and most people at the event drive home under the influence. What a way to uphold the law. I think you got my point so please take a minute to think about this. Thank you.
