General Comment

this plan for food in disasters should include the element that citizenship should be determined in disasters and the best thing for handling crowds hurt is to immediately put foreigners on a bus and get them out of the area. give them a meal and then put them on a bus headed toward mexico. its time to get the illegal sneaking leaching lawbreaking immigrants out of this country and get them back in their own countries. i see no reason why american tax dollars should prolong the stay of any foreigner who has no right to be in this country because he did not come in here the legal way. we cannot continue to encourage illegality. the record of those who sneak here illegally shows them violating every law we have. they just do what they want. they drive and don't have licenses. they sneak into school. they have 25 identifies and lie and don't pay bills. they prostitute. they commit crimes. they are druggies. its time to clean up america. all of us who live here want to know who else is here in this country. we need trust with our neighbors. we don't want lying law breakers allowed in here. so this plan by this dept should include one meal and then the bus to leave. all others besides mexicans need to be airlifted to wherever they come from to. a fine of \$500,000 should also be put on their records so that if they ever try to come back

here legally, that fine that they caused all this work to root them out would repay americans for the trouble they caused by being unlawful. we dont want millionsof mexicans so that 1/3 of all of mexico is living here illegally.the situation has grownimpossible.
