RE: *Federal Register* notice of March 27, 2015 for CBP Forms 214, 214A, 214B, and 214C --  
Application for Foreign Trade Zone Admission and/or Status Designation (OMB  
Number: 1651-0029)

Dear Ms. Denning:

The Bureau of Economic Analysis (BEA) strongly supports continued collection of information for the Customs and Border Protection Forms CBP-214, 214A, 214B, and 214C (Application for Foreign Trade Zone Admission and/or Status Designation). Information obtained from these forms is critical to the compilation of the foreign trade statistics of the United States, and failure to collect this information would have an immediate adverse impact on the quality of these statistics. Accurate measurement of activity in foreign trade zones has taken on increased significance in recent years as the zones play a larger role in international trade.

The foreign trade statistics are critical to the quality of the international transactions accounts (ITA) and the input-output (I-O) accounts. Data from Form CBP-214 (items 14-20), movements of merchandise into foreign trade zones (FTZ) in the United States, are used by the Bureau of Census to prepare general imports of merchandise into the United States. These general imports are used in both the ITA and I-O accounts. General imports of merchandise are a direct input into line 11 ([Imports of] Goods, balance of payments basis) in Table 1.1 of the ITAs.

Please keep BEA informed concerning any modifications to these forms. We are particularly interested in any modifications proposed during the forms' approval process that would substantially affect our use of these data. For additional information, please contact Tiffany Burrell, Source Data Coordinator, on 202-606-9618 or by e-mail at [Tiffany.Burrell@bea.gov](mailto:Tiffany.Burrell@bea.gov). Should you need assistance in justifying these forms to the Office of Management and Budget, please do not hesitate to contact BEA.

Sincerely,

Dennis J. Fixler  
Chief Statistician
