no american tax dollars should be used for hti sprogram and this program should be shut down. our govt has no obligation to take c am totare of reuniting families from foreign countries. that is their total obligatioin and no american tax dollars should be spent in this effrort. tis is a terrible time wasting activity full of lies told by family members to get into the usa to leach forever. they come here to leach on american taxpayers. i am totally oppose totally to this entire program. shut it down. defund it. cut the budget to zero.

taxpayers are tapped out with all the freeloading leaches sneaking into and invading this country for riches for themselves. those who have ben her contributing to this country and makign it what ity was are now being thrown into the trashpile and saddld with huge taxes so that these latecomer foreigners can sail in here with huge amounts to live on.

ook atall the money those two bombers in the boston marathon were getting from the us govt. none of them had to work because they got plenty of money for rent in aparetments, food and cars and everything. nobody is givng any of that to american citizens who are pushed into bankruptcy paying taxes for these foreign leaches.

this program sucks and stinks and is an insult to the american people. use american tax dollars to help american families aonly. this nation is on the way to third world status from all these out of control corrupt govt programs. is this the one obama secrety set up without authorization. we have a rogue president who is not working for the aerican peop.e at all.
