MANY OF THESE WELFARE PAYOUTS. THE TAX LOAD FOR THE AMERICAN PUBLIC IS
GOIUGED TO ENORMOUS AMOUNTS AND THE AVERAGE AMERICAN HAS TO WORK 2 AND 3
JOBS TO SUPPORT HIS OWN FAMILY THES DAYS. THESE STUPID PROGRAMS RESULT IN
LITTLE TO NO REAL HELP SINCE THERE ARE NO JOBS FOR THESE PEOPLE TO GET WITH
ALL OF THE JOBS GOING TO CHINA, BANGLADESH AND OTHER COUNTRIES. SO MANY
COMPANIES ARE MOVING OUT OF AMERICA AND TAKING JOBS WIHT THEM. CLEARLY
TRAINING FOR NON EXISTENT JOBS MAKES NO SENSE. THIS PROJECT SHOULD BE SHUT

the Young Parents Demonstration Program, Reinstatement With Change

AGENCY: Employment and Training Administration (ETA), Labor.

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 [44 U.S.C. 3506 (c) (A)] (PRA). The PRA helps ensure that respondents can provide requested data in the desired format with minimal reporting burden (time and financial resources), collection instruments are clearly understood and the impact of collection requirements on respondents can be properly assessed.

Currently, ETA is soliciting comments concerning the information collection request (ICR) to collect data for the Evaluation of the Young Parents Demonstration Program (YPDP).\1\

SUPPLEMENTARY INFORMATION:

I. Background

The proposed reinstatement with change of information collection is for an evaluation of the YPDP. The YPDP is sponsored by ETA to test innovative strategies that can improve the skills and education of young parents and, ultimately their employment and earnings.

The YPDP grantees are required to develop a ``bump-up`` intervention providing an additional level of services above and beyond the existing services currently provided that are specifically intended to increase an individual's education, job training and employment. A

key factor in the bump-up design is having a single, persistent intervention for the treatment group that is substantially different from what the control group receives. Each of the grantees is implementing one of the following two bump-up interventions:

Mentoring Models--Intensive professional staff mentoring specifically for education, employment, and training; and specifically for pregnant and parenting teens and young parents; or

Employment/Education/Training Models--Guided employment, education, training and related supports specifically for pregnant and parenting teens and young parents.

Individuals enrolling in YPDP have a 50/50 chance of receiving this additional level of services. Those individuals not receiving the bump-up services receive the existing services offered by the grantee.

To evaluate the YPDP bump-up interventions, we will compare the education, employment, and other outcomes for the two groups over various points in time. The evaluation will estimate the success in providing educational and occupational skills training that fosters family economic self-sufficiency to young parents (both mothers and fathers) and expectant parents ages 16-24.

II. Review Focus

The Department of Labor is particularly interested in comments which:

Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

Enhance the quality, utility, and clarity of the information to be collected; and

Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
