

APPENDIX G:
Nutritional Risk Worksheet

Nutritional Risk Criteria Worksheet PC2016

This form includes the Nutritional Risk information reported for [STATE NAME] in PC2014. To update the worksheet for PC2016, please:

- Review the worksheet to verify that all your State agency’s codes are included and mapped to the correct FNS Risk Code.
- Indicate any revisions to the codes by selecting "New Code(s) -- Delete PC2014 Code" (meaning the PC2014 codes are no longer valid) or "Additional Code(s)" (meaning the PC2014 code(s) are still valid, but there are additional codes map to that particular Nutritional Risk).
- Type any edits or new codes in the Revisions/Additions column.
- E-mail the completed worksheet to pc2016@insightpolicyresearch.com.

When adding and changing codes, please remember, a **State agency code cannot correspond to FNS Risk Codes in different categories**. On this form, bold lines separate categories.

If you will be submitting data using the **standard FNS Nutritional Risk Codes**, you do not need to complete this worksheet. Please just let us know the data will include the standard FNS Risk Codes by sending an email to pc2016@insightpolicyresearch.com or calling Chrystine Tadler at (703) 504-9490.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-XXXX. The time required to complete this information collection is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
