Organization: Purple Karat Enterprises

General Comment

We are a Certified Organic farm and have been for 18 years. I do not feel as if the amount of time and effort it takes to do the compliance paperwork for our certification is intrusive to our farming. I feel like about 40 minutes per week is spent on keeping our organic records up to date over the course of the year. I would like to see mandatory sampling and testing done each year with inspections so that the label of Certified Organic continues to mean that we are what we say we are.
